We would like to object to any rates increase as our house and land has de-valued so much in the past 12 months. We also object strongly to the COK developing a hotel which will be competing with local businesses who are struggling to survive now. There is enough accommodation in the town already. People cant afford to live here now which is obvious with the amount of repossessions happening so perhaps put something back into the community to assist and enable people to survive here. Which is not by increasing the rates !!!
