Subject: ICR185986 - RV.10 - Rate Rise

To Whom This May Concern,

OBJECT.. OBJECT... OBJECT..We have been waiting for a substantial decrease in our rates, not another rise. The GRV has been going down for years, we deserve some kind of break. Our houses now are worth 200-300K not the 800k-1.5mil they were years ago, we've had to pay for underground power which ruined so many families and businesses financially. Crime is through the roof in this place and the facilities for a supposed City are very limited when it comes to medical care especially when dealing with cancer which even with the new hospital we have already been told it will not accommodate. So it is a big NO from us. What was going to happen? Were you planning on building a hotel with our rates rise and the make us the ratepayers shareholders or is it all just for Cok ?????

Regards
