Subject: ICR185992 - RV.10 - Rate Increase Objection.

To whom it may concern.

I would like formally object to 2018 proposed rate increases. Current rate costs are already way above reasonably costs and should reflect a decrease in line with property values and GRV. The counsel should be budgeting according to forecast revenue not making plans then increasing rates to make them happen. All businesses in W.A. have had to cut expenditures and become more efficient with available funds. This is the current economic climate and not "boom time".

People that have chosen to build in Karratha and make the town what it is shouldn't be paying 3x more than Perth rates . Encouraging growth, I think not.
