Dear Sir/Madam
Re: Request for information, Your Ref: E17007 A5117

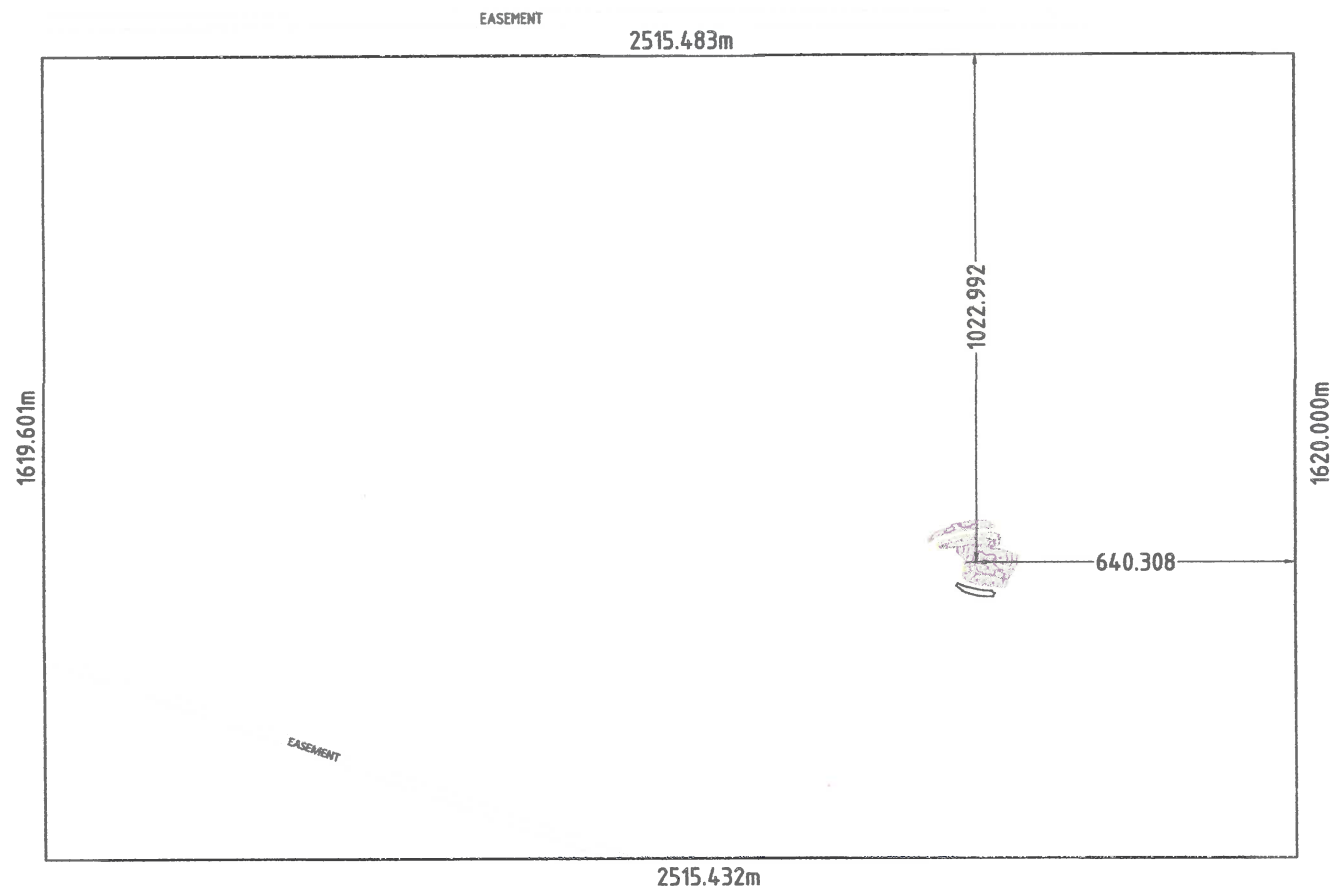

Cheeditha is freehold land owned by the Cheeditha Group Aboriginal Corporation. Cheeditha Community has agreed to store concrete, asphalt and rocks reclaimed from the Birabira site at Cape Lambert to use as hard stand for projects aimed at a sustainable economic future. There have been approximately 64,000 tonnes of concrete and rock delivered and deliveries are now complete. The location of the site was selected by the Chairperson at Cheeditha because it is sufficient distance from the residences and is minimally visible. It is anticipated that the materials will be used for future development within 5 years. There are no plans to crush the material at this point.

We thank the City of Karratha for their assistance and support in this initiative by the Cheeditha Community.

Yours truly,

Carrie McDowell

Planning Department
