

Notice: Old Wickham Hospital Demolition Works Underway

Local company CMA Contracting was recently awarded the tender for the demolition works of the Old Wickham Hospital site. These works are a preliminary step in preparing the site for future development opportunities with the site expected to be cleared by June 2018.

Works will include the removal of asbestos, demolition and disposal of the building, removal of asphalt areas and services, site levelling and excavations backfilled. The competitive running track along the northern boundary will not be affected.

Removal of asbestos will be carried out by licensed contractors in accordance with all occupational and public health requirements, and all necessary steps will be taken to prevent release from site with air monitoring undertaken during this time.

Traffic management will be in place while works are underway, and residents should be mindful of an increase in heavy vehicle movements around the site.

For information contact Trevor Baumgart, CMA Contracting Supervisor on 0488 726 952, or KC Clevenger CMA Contracting HSE Advisor on 0423 114 959.
