

Dampier Community Hub

Soaring roofs create dramatic external spaces and provide opportunities for natural light to penetrate internal spaces.

The continuity of the metal screen, based on the rich colours of the Pilbara draws the eye to the entry of the Dampier Community Hub and provides a clear path into the shaded social spaces.

The screen acts as a common thread connecting all buildings, it allows cooling breezes to penetrate while providing shade from the harsh Dampier sun

Dampier Community Hub

Northern Approach

The continuity of the metal screen draws the eye into the heart of the Community Hub and provides a clear entry into the large and shaded social spaces.
